

## **ACADEMIC PROGRESS REPORT – FINAL YEAR (FIRST SEMESTER)**

Name: Christian Kereziwe

Program: BSc. Prosthetics and Orthotics

Institution: University of Health and Allied Sciences

Academic Year: 2024/2025

Semester: first semester

GPA: 3.1

Dear Mr. Edem and GNAP Foundation,

I trust this report finds you well. I am writing to update you on my academic progress during the first semester of my final year in the BSc. Prosthetics and Orthotics program.

### **ACADEMIC PROGRESS**

During the semester, I successfully completed the following courses:

Clinical Practice (Prosthetics and Orthotics)

Clinical Application of Imaging

Bioinformatics

Engineering Economics and Management

Principles of Environmental Science

Applied Health Service Management

Sensors and Transducers

These courses have significantly broadened my knowledge in both core clinical and interdisciplinary areas. Clinical Practice provided extensive hands-on experience on patient assessment, device fabrication and fitting and patient follow-up. Courses like Clinical Application of Imaging and Bioinformatics enhanced my understanding of diagnostic technologies and data analysis in healthcare. Meanwhile, Engineering Economics and Management along with Health Service Management, offered insights into the operational and administrative aspects of health systems. The course on Sensors and Transducers exposed me to the foundation technologies behind intelligent rehabilitation devices.

### **EXTRACURRICULAR ACTIVITIES**

In addition to my coursework, I have actively participated in the Orthotics and Prosthetics Students Association. Through workshops and seminars, I have continued to develop my practical skills and expand my professional network.

#### ACKNOWLEDGEMENT AND OUTLOOK

I am deeply grateful for your continued financial support. Your investment in my education has allowed me to pursue my studies with focus and determination. As I prepare for my final semester and the completion of my project work, I remain committed to achieving academic excellence and contributing meaningfully to the field.

Thank you once again for your support.

The university is scheduled to reopen for the next semester on the 21<sup>st</sup> July, 2025.

**I represented my department at the university council.**

**My assignment is to use the back of baobab Tree for fibres extraction**

**This was my client a physically challenged woman from Adaklu community, the aim is to improve her prosthesis, the outcome was good**
